

## **The Daily Waste**

*May 11, 2004*

A General Accounting Office (GAO) report found that out of 120 improper and abusive or questionable transactions with purchase cards, no employees were fired or suspended. Only 3 people had to repay the costs of improper charges, and no action was taken at all for 68 of the transactions.

*And the Democrats want to raise your taxes to pay for more of this?*

*Source: (GAO report, GAO-04-156)*
